AMERICA'S LEADING MANUFACTURER OF LAWN AND TURF EQUIPMENT

Pow-R-Pro DELUXE 8-6

ROTARY MOWERS

Electric key-start or Pull 'n Go starting with automatic choke, engine cover, and fold-down handle features make these the ideal family mowers. Fingertip height adjustment and exclusive POW-R-VAC® housing design let Pow-R-Pros cut from 1" to 3½" high, within ⅛" of obstacles, and under fences for the ultimate in versatility.

EHSE-121 (Stock No. 254) 21" POW-R-PRO Self-Propelled.
 • Engine—3½ hp B&S with electric key-start . . . New engine cover • Cutting—21" swath with 1" to 3½" fingertip height adjustment. • Wheels—Steel (6" front, 8" rear); rear wheels cast iron with Torrington overriding clutch bearings . . . Left wheels recessed for close trimming. • Frame—Cast aluminum alloy Pow-R-Vac® housing . . . Wash-out hole for under-deck cleaning . . . Grassbag included. • Optional equipment—Custom leaf and grassbags . . . Leaf mulcher.

EHS-121 (Stock No. 253) 21" POW-R-PRO Self-Propelled.
 Same as Model EHSE-121 except with Pull 'n Go start.

EHE-121 (Stock No. 253) 21" POW-R-PRO Hand-Propelled.
 Same as Model EHSE-121 except not self-propelled. Oil-impregnated wheel bearings. Has fold-down handle with reinforced mounting supports.

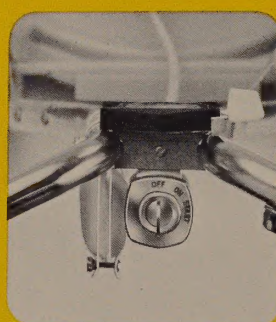

EH-119 (Stock No. 251) 19" POW-R-PRO® Hand-Propelled.
 The ideal power mower for a small lawn. The lightweight 19" Pow-R-Pro® offers all the advantages of the larger 21" models, except that the 19" cutting width requires only the 3 hp B&S engine with automatic choke, vertical Pull 'n Go starting. Has fold-down handle for easy transportation and storage.

Vertical Pull 'n Go starting takes 25% less effort than conventional recoil type.

Fold-down handle nestles snugly against mower for easy storage and transportation.

New electric key start—simply turn key to start engine, remove key to leave mower in safety.

Patented Pow-R-Vac® housing creates powerful suction, lifts grass straight up for smooth, even cut.

Pow-R-Pro SUPER 10-6 ROTARY MOWERS

Big 3½ hp engine helps shear every grass blade close and clean. 10" rear wheels provide easy handling and top maneuverability. Variable ground speed on self-propelled models lets every member of the family select his (or her) own walking speed.

EHDS-121 (Model No. 258) 21" POW-R-PRO Self-Propelled. Engine—3½ hp B&S with automatic choke. • Cutting—21" swath with 1" to 3½" fingertip height adjustment. • Wheels—Front: 6" ball-bearing steel wheels; rear: 10" cast iron wheels with Torrington overriding clutch bearings. • Positive-proof rear wheel drive with fingertip clutching. • Recessed on left side for close trimming. • Frame—Cast aluminum alloy Pow-R-Vac® housing. • Wash-out hole for under-deck cleaning. • Low-profile design for easy trimming. • Grassbag included. • Optional equipment—Custom leaf and grass bags. • Leaf mulcher.

EHD-121 (Stock No. 257) 21" POW-R-PRO Hand-Propelled. Same as Model EHDS-121 except without self-propulsion equipment.

Pow-R-Pro SUPER 10-6 with belt-driven blade

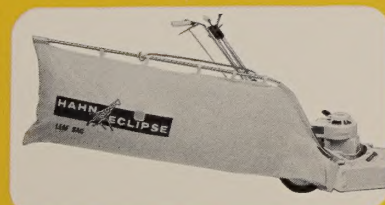

Belt-driven blade means easier starting with blade disengaged, protects engine from shock and load damage. (Operator engages blade from behind the handle.) Also provides 18" of low-profile mowing out in front, for trimming under fences and shrubbery. Trims within ⅛" of obstacles.

PHS-122 (Stock No. 235) 22" POW-R-PRO Self-Propelled Belt-Drive. Engine—3½ hp B&S with automatic choke. • Recoil starter. • Variable ground speed. • Cutting—22" swath with 1" to 3" fingertip height adjustment. • Wheels—Front: 6" ball-bearing steel wheels; Rear: 10" cast iron wheels with Torrington overriding clutch bearings. • Positive-proof rear wheel drive with fingertip clutching. • Recessed on left side for close trimming. • Frame—Cast aluminum alloy Pow-R-Vac® housing. • Belt-driven blade. • Wash-out hole. • Low-profile design for trimming. • Optional equipment—Standard and custom grass and leaf bags. • Leaf mulcher.

BH-42 Standard replacement grass bag

AMERICA'S LEADING MANUFACTURER OF LAWN AND TURF EQUIPMENT

Steel Housing ROTARY MOWERS with direct drive

EH-117 (Stock No. 261) 17" Deluxe Trimmer, Hand-Propelled. Engine—3 hp B&S with automatic choke. • Cutting—17" swath with close-trim edge. • Wheels—8" steel rear, 6" front. • Frame—14-gauge steel housing. • Bolt-on handle with reinforced mounting brackets.

EPE-121 21" Zephyr (Stock No. 263), Hand-Propelled. Engine—3 hp B&S with 14-volt electric key-start, rechargeable battery, battery charger. • Cutting—21" swath with fingertip height adjustment 1" to 3". • Wheels—8" rear, 7" front, steel. • Recessed on left side with square trimmer notch. • Frame—Patented fully baffled 14-gauge steel Pow-R-Vac® housing. • Recessed engine mounting. • Reinforced wheel pads. • Bolt-on chrome handle. • Optional equipment—Standard and custom grass and leaf bags.

EP-121 (Stock No. 262) 21" Zephyr, Hand-Propelled. Same as Model EPE-121 except with Pull 'n Go start.

For really tough jobs on rough unfinished grounds or manicuring the finest lawns, the answer may be the added performance of the versatile

21" High-Wheel ROTARY MOWERS with belt-driven blade

IHDS-121 (Stock No. 224) 21" Deluxe Self-Propelled High Wheel. Engine—3½ hp B&S with recoil starter and automatic choke. • Chain and pinion rear wheel drive. • Cutting—21" swath with front-wheel instant height adjustment. • Belt-driven blade. • Wheels—16" rear and 7" front ball-bearing steel. • Frame—Steel Pow-R-Vac® housing, fully baffled. • Optional equipment—Leaf mulcher. • Standard and custom grass and leaf bags.

LH-121 (Stock No. 218) 21" Deluxe Hand-Propelled High Wheel. Same as Model IHDS-121 except hand-propelled.

Pow-R-Boy ROTARY TILLERS

with vertical shaft

Perfectly balanced so 90% of the weight is over the tines . . . not on the handles. (Make the lift test yourself—see how easily the wheels lift off the ground with just a slight lift on the handle!) Exclusive Hahn-designed tines pulverize even packed and/or grassy soil. Easy maneuverability means you can work closer to plants without worry.

■ EHT-120 (Stock No. 451) 20" POW-R-BOY Vertical-Shaft Tiller. Engine—3½ hp B&S with recoil start. • Tilling—12" dia. tines till area 20" wide . . . Removable wheels . . . Adjustable depth bar. • Optional equipment—6" and 8" furrowing attachments . . . Extension tiller tine . . . ET extension tines (add 8" tilling width).

■ PHDT-124 (Stock No. 460) 24" POW-R-BOY Vertical-Shaft Tiller. Engine—4 hp B&S with power reverse, mechanical governor, and easy-spin recoil starter. • Tilling—24" width . . . Single control for forward and reverse . . . removable wheels . . . 12" diameter tines. Optional equipment—6" furrowing attachment, 8" furrowing attachment . . . Extension tiller tine . . . ET extension tines (add 8" to tilling width).

■ UHT-124 (Stock No. 462) 24" POW-R-BOY Vertical-Shaft Tiller. Same as Model PHDT-124 except without reverse.

Pow-R-Boy ROTARY TILLERS

with horizontal shaft

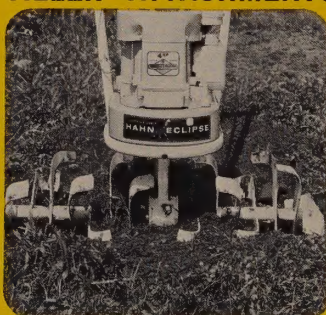

■ LHT-124 (Stock No. 466) 24" POW-R-BOY Horizontal-Shaft Tiller. The largest, most rugged member of the POW-R-BOY line. Ideal for large gardens or commercial work, because big, thin tines slice through soil FAST. Includes forward and reverse. • Engine—5 hp B&S with easy-spin recoil starter, mechanical governor . . . Power reverse. • Tilling—13" diameter tines give 24" tilling width . . . Single lever controls both forward and reverse operation . . . Instantly removable wheels. • Optional equipment—6" furrowing attachment, 8" furrowing attachment . . . RTH extension tiller tine . . . RT extension tines (add 8" to tilling width).

"Lift Test" means a better job and easier handling because tiller weight is over tines . . . not on wheels or handle.

Exclusive instantly adjustable depth bar gives complete control of tilling depth.

Extension tines let you dig wider, do any tilling job faster.

Furrowing attachment makes your tiller even more versatile.

Extension tiller tines throw dirt to row for hilling.

30" Super Pow-R-Boy LTD 500

gear transaxle drive

RIDING MOWERS

With these beauties on the job, your lawn will have a manicured appearance; Pow-R-Vac® mower housing has rear-mounted wheels to follow ground contour and anti-scalp skids. Spring-loaded instant height adjustment lets you raise blade height from 1¼" to 3½" from the driver's seat. Separate clutch and brake pedals, automotive steering, spring-mounted cushioned seat, and easy-riding 16" flotation tires make mowing a privilege . . . not a problem!

■ EHD-130 (Stock No. 354) 30" POW-R-BOY LTD-500 Super. Engine—7 hp B&S with recoil starter • Exclusive Pow-R-Vac® housing • Transmission—3 forward speeds, neutral, and reverse . . . Separate foot brake and clutch • Transmission and differential—Fully oil-enclosed in same case . . . Dependable, rugged transaxle power transfer • Cutting—30" swath with instant height adjustment 1¼" to 3½" • Tires—16 x 6.50 flotation wide-track pneumatic (rear) . . . 11 x 4.00 flotation wide-track (front) • Frame—12-gauge steel . . . Spring-mounted vinyl-covered foam seat . . . Baked high-gloss enamel finish . . . Floating front axle . . . Automotive steering . . . Trailer hitch • Optional equipment—Grassbag attachment, Model EH-174 (Stock No. 174) . . . Leaf mulcher, Model EH-145 (Stock No. 145).

■ EHE-130 (Stock No. 356) 30" POW-R-BOY LTD-500 Super. Electric Key-Start. Same as Model EHD-130 except with 12-volt battery, battery charger, and electric key-start.

26" Pow-R-Boy RIDING MOWERS

with friction drive transmission

Exclusive Pow-R-Vac® Housing, spring-loaded fingertip cutting height adjustment and anti-scalping skids make every job a perfect job. Separate clutch and brake pedals. Neutral brake holds your Pow-R-Boy in place (even on hills) when you're not at the controls. New oil-enclosed chain drive provides the reliability every owner wants.

■ EHE-126 (Stock No. 353) 26" POW-R-BOY 200 Electric. Engine—5 hp B&S with electric key-start . . . Fuel capacity 2 qts. • Transmission—5 forward speeds (2-5 mph), parking, and reverse. • Cutting—26" swath with instant height adjustment 1"-3" . . . Belt-driven blade . . . Wheelbase, 40" . . . Turning radius, 32". • Tires—13 x 5.00 tubeless flotation wide-track traction (rear) . . . 10.25 x 3.25 semi-pneumatic (front). • Frame—12-gauge steel with adjustable cutter frame for leveling deck . . . Deluxe seat with foam padding . . . Baked high-gloss enamel finish. • Optional equipment—Grassbag attachment, Model EH-172 (Stock No. 172) . . . Leaf mulcher, Model EH-95 (Stock No. 95).

■ EHD-126 (Stock No. 352) 26" POW-R-BOY 200 Deluxe. Same as Model EHE-126 except without electric key-start.

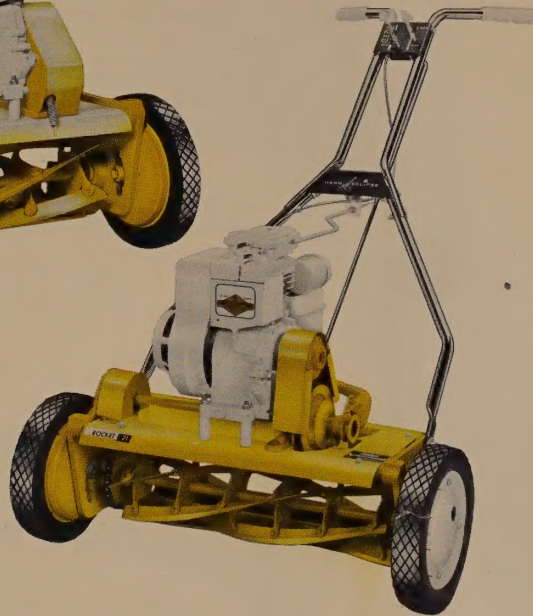

■ EHS-126 (Stock No. 350) 26" POW-R-BOY Standard. Same as Model EHD-126 except has four forward speeds; speed range 1¾ to 4¼ mph; mechanical height adjustment 1½"-3"; and tractor-type seat. Optional equipment—Seat cushion . . . Trailer hitch . . . Grassbag, Model RH-171 (Stock No. 171) . . . Leaf mulcher, Model EH-95 (Stock No. 95).

HAHN-ECLIPSE

For the immaculate look of a professionally maintained lawn . . . the precision, scissor-action cutting of the

Self-Propelled REEL MOWERS

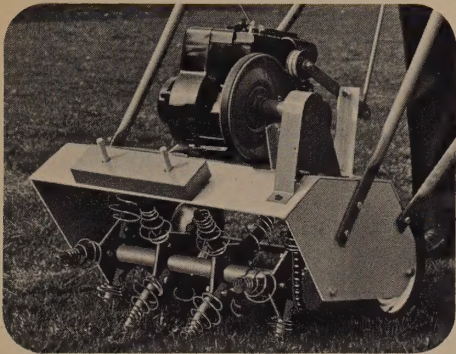

LH-519 (Stock No. 123) 19" LARK. Engine—2 hp B&S with recoil start . . . Self-adjusting spring tension clutch. • Cutting—19" swath . . . Quick wheel adjustment $\frac{5}{8}$ " to $3\frac{1}{8}$ " . . . Torrington overriding clutch bearings in pinions . . . Two-section roller • Tires—10 x 1.75 diamond-tread traction tires. • Optional equipment—Grass catcher.

LH-521 (Stock No. 125) 21" ROCKET Five-Blade. Engine—2 $\frac{1}{4}$ hp B&S . . . foolproof internal expansion clutch for easy, instant control. • Cutting—21" swath . . . 4-section rollers . . . Quick height adjustment $\frac{5}{8}$ "- $3\frac{1}{8}$ " . . . Torrington overriding clutch bearings in pinion. • Tires—10 x 1.75 diamond tread. • Optional equipment—Grass catcher.

LH-521-7 (Stock No. 124) 21" ROCKET Seven-Blade. Same as Model LH-521 except with seven-blade reel for zoysia, bermuda, and bent grass lawns.

AERIFY and VERTI-CUT[®] to keep lawns healthy and growing...

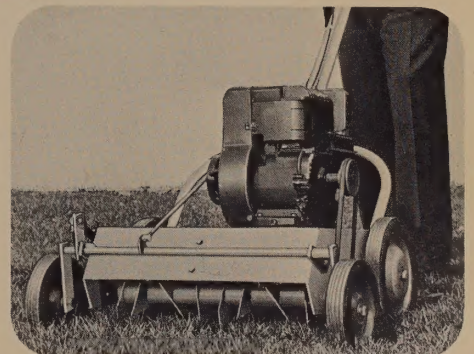

EA-3 AERIFIER[®]

Power-driven Estate Aerifier[®] EA-3 uses sixteen special aerifying spoons to cultivate 18" swath. Powered by a 2 $\frac{3}{4}$ hp B&S engine, operated by hand-controlling throttle and clutch levers. One removable weight bar is standard; another may be added. Overall width is 30", weight is 135 lbs.

PM-5 AERIFIER[®]

Use the PM-5 behind a garden tractor to aerify as you mow. Forty spoons cultivate big 30" swath. Includes depth adjustment and transport wheels as standard equipment. Weight: 125 lbs.

VC-15 VERTI-CUT[®]

The VC-15's eight spring-steel blades groove lawn and remove dead plant material so air, water, and fertilizer can reach grass roots. No ripping of tender grass blades. 5 hp B&S power will groove soil to prepare seed bed or cut out existing thatch. Model VCD-15 27-blade reel for vertical mowing of fine turf grasses also available.
